RE: 2007 Emergency Responder/Public Official Presentations

JAN 1 11 2007

Itavalli County Commissioners
[Signature]

In 2007, the Montana Liquid and Gas Pipeline Association (MLGPA), in coordination with the Montana One Call Center (UULC), is offering a free presentation (including lunch) to emergency responders and public officials as part of its commitment to public awareness around pipelines. These presentations are intended to provide local pipeline operators the ability to establish and maintain a liaison with emergency response and public officials, as well as present an educational opportunity for the responders and officials.

The 2007 schedule of presentations is listed below. The meetings, which will be held during the noon hour unless otherwise noted, will provide pertinent information on pipeline facilities and responses to pipeline emergencies (including tactical responses). Last year, you or your organization received a resource binder that included specific pipeline facility information for your area, emergency contact information for all local pipelines, and resource information available to responders during an emergency. The subject matter provided in these 2007 meetings will supplement that original material with additional pipeline safety information.

All representatives from your organization are encouraged to attend the meetings listed below. The meeting will provide you with an interactive opportunity to discuss pipelines with operators in your area. To encourage your attendance at the meetings, the MLGPA and local operators will hold a drawing at each meeting where a GPS unit will be given away. Numerous other promotional items will also be available from the local operators. Please respond as soon as possible if you are able to attend so arrangements can be made for meals.

Thank you in advance for your continued dedication to safety and public awareness of liquid and gas pipelines. If you have any questions or comments, please contact me at 406-497-2446.

RSVP to: NorthWestern Energy at 800-440-2497, or via e-mail teresa.mcgrath@northwestern.com.
